

Namrata Soni

Software Engineer

9414186426 | Jodhpur, Rajasthan | namratasoni2003@gmail.com | LinkedIn

Summary

Cloud Engineer with 2.5+ years of experience specializing in Azure IoT, AI, Databricks, & Fabric infrastructure. Skilled in delivering secure Landing Zones, AKS, & advanced networking using IaC (Terraform, PowerShell, Bicep) across multi-environment setups.

Skills

Primary Skills

Cloud: Microsoft Azure, AKS
Azure Services: IoT Hub, AI Services, AI Foundry
Azure Networking: DNS, Firewall, Load Balancer
Data: ETL, Azure Data Factory, Azure Databricks
Containerization: Docker, AKS

Secondary Skills

DevOps & CI/CD pipelines: Azure DevOps
Automation: Azure Automation Account, Bicep, Terraform, Powershell, GitHub Actions
Version Control System: Git
Operating System: Windows, Linux

Education

Jodhpur Institute of Engineering and Technology
B.Tech in Computer Science CGPA: 9.4

Jodhpur, Rajasthan
2021 – 2025

Work Experience

Cloud Engineer

Apr 2024 – Present

Celebal Technologies, Jaipur, IN

- Designed, deployed, and managed Azure infrastructure including Virtual Machines, Storage Accounts, Virtual Networks, NSGs, Load Balancers, NAT Gateway, Azure Firewall, etc.
- Contributed to Azure Landing Zone implementation by provisioning infrastructure, configuring RBAC and secure networking, and applying best practices in governance, monitoring, and scalability.
- Worked with Azure Integration Services (Logic Apps, Function Apps) and AI Services for connectivity and data processing.
- Built and automated cloud deployments using Terraform (IaC) automation and implemented secure networking and access policies.

Data Scientist

May 2023 – Jun 2023

Zeetron Networks, Jaipur, IN

- Delivered training in Data Science and ML using Python (NumPy, Pandas, Matplotlib).

Projects

AI-Powered Azure Enterprise Document Processing Platform

Role: AI Solution Engineer

- Deployed Azure AI Foundry infrastructure for a document processing platform with GPT-4o models, securing core services, Key Vault, and VNet baselines.
- Configured RBAC and Managed Identities for service-to-service authentication, ensuring private connectivity between AI Foundry and AI Hub.
- Resolved TPM and authentication issues, enabled secure Bastion VM access, and authored technical handover documentation.

Secure Azure AI Infrastructure Platform

Role: AI Infrastructure Engineer

- Provisioned secure Azure AI Foundry Hub Compute infrastructure, enabling data science teams to build energy-sector ML models.
- Configured Private Endpoints, DNS zones, and IAM policies, troubleshooting and resolving endpoint connectivity blockers.
- Validated AI Foundry agent endpoints and model execution environments, coordinating cross-team access across multi-environment setups.

Azure Enterprise Industrial IoT Data Platform

Role: Azure IOT Engineer

- Architected end-to-end IoT data ingestion pipelines utilizing Azure IoT Hub, DPS, Event Hubs, and Stream Analytics.
- Provisioned Databricks workspaces, Unity Catalog, access controls, compute clusters, and storage, driving automated IaC deployments via Azure DevOps.
- Integrated IoT Edge with OPC UA/DA protocols, troubleshooting telemetry connectivity while deploying Microsoft Fabric Real-Time Intelligence (RTI) for live dashboarding.

Certifications

Microsoft Certified: Azure Fundamentals (AZ-900)
Microsoft Certified: Azure Administrator Associate (AZ-104)

Research Trainee: Machine Learning
Microsoft Certified: Azure Developer Associate (AZ-204)
